Curriculum Vitæ

# Lucas Schoenherr

## Senior Product Designer

*UI/UX · Design Systems · AI Product Design*

Rio de Janeiro, Brasil ❖ lucas.schoenherr@gmail.com ❖ linkedin.com/in/lucas-scho ❖ designbylucas.com

D Senior Product Designer with 13+ years leading end-to-end design for companies and major enterprise clients such as Vale, Vivo and Accenture. Specialized in UI, UX, Design Systems and AI product design with hands-on experience designing LLM-powered conversational interfaces, Generative AI features and AI-assisted flows shipped to production. Consistent track record solving complex operational challenges across telecom, healthcare, mining and high-stakes environments, where interface clarity directly impacts safety and business outcomes.

## Professional Experience

### **Independent Product Designer** · Freelance

*Abr 2024 – Presente*

*Independent period with deliberate focus on AI applied to product design*

- Hands-on specialization in AI and LLMs (Claude, Cursor, Generative AI) applied to real product-design workflows: ideation, rapid prototyping, and accelerated decisions.
- AI certifications applied to the craft (2026): Google AI Essentials, by Google, and Generative AI: The Future of UX UI Design, by SkillUp.
- Portfolio (designbylucas.com) designed and hand-coded from scratch in HTML/CSS/JS, with its own documented design system.
- Enterprise case studies: Gen.AI Vivo, Samarco Strategic PMO, Lighthouse (Vale), and Sports Experience (DirecTV/FIFA).
- Independent initiatives in financial management and business strategy, broadening prioritization judgment in complex contexts.

### Accenture — One Studio

*2022 – Abr 2024*

*Specialist Product Designer (UI/UX)*

- Lead end-to-end designer on in-house LLM conversational products at Vivo, integrating continuous user feedback through usability testing to refine AI-driven interfaces and reduce friction in production.
- Designed digital products or hospitals and healthcare institutions (Sírio-Libanês), translating complex clinical workflows into intuitive interfaces — from research and journey mapping to technical handoff.
- Collaborated on the World Cup broadcast project with FIFA and DirecTV, delivering cohesive cross-platform experiences (mobile, web, TV) under high-visibility, time-critical conditions.
- Led UX/UI design of critical dam- and mine-monitoring dashboards for Vale (Fortune Global 500), enabling real-time decisions in high-risk environments where interface clarity directly impacts safety.
- Maintained and evolved a shared design system across multiple products, ensuring visual consistency and accelerating delivery cycles through reusable, well-documented components.
- Delivered high-fidelity prototypes and POC solutions that validated product hypotheses before development investment, supporting faster decisions across domestic and international teams.
- Mentored designers of all levels, raising team output quality through structured critique sessions and hands-on guidance.

### Accenture & Vale Digital Lab

*2020 – 2022*

*Senior Product Designer (UI/UX) — Design Team Lead*

- Led and managed the Digital Lab design team, establishing process standards and delivery pipelines that improved cross-squad alignment and output consistency across concurrent projects.
- Developed a multi-method research system that standardized how the team gathered and synthesized user insights — enabling faster, evidence-based design decisions.
- Restructured the prototype and POC delivery pipeline, reducing friction in design-to-engineering handoff on time-critical deliverables.
- Designed interfaces for robotic control systems in remote mining operations, where response precision directly impacts operational efficiency and worker safety.
- Led UX design of dam disaster-prevention dashboards in high-risk monitoring scenarios, enabling real-time safety decisions.
- Ran usability testing and technical handoff for a diverse portfolio — on-site safety, quarantine prevention, financial processes and route optimization.

### Infobase TI

*2019 – 2020*

*Senior Systems Analyst — UX/UI Design*

- Conducted research and prototyping for multiple Vale IT projects, translating complex internal processes into usable digital interfaces for service portals, mobile and desktop apps.
- Restructured the UX of Vale's service-transition system, reducing operational friction in a critical internal flow used across multiple business areas.
- Designed Vale's corporate access portal, modernizing authentication flows and navigation architecture for thousands of internal users.
- Built Vale's corporate Design System from scratch — component library, pattern documentation and governance model — enabling faster delivery with visual consistency at scale.

### Earlier Experience

*2011 – 2019*

- Freelance — Architecture & Set Designer / Graphic Designer (domestic and international clients).
- PTT Eletronuclear — IT Technician in Controlled Areas.
- Interart Brasil — 3D Modeler & Set Designer · Fidelity Brasil
- Fidelity Brasil — Graphic Design & IT Intern.

## Expertises

- User Experience (UX) Design
- User Interface (UI) Design
- Interaction Design & Design Thinking
- Design Systems & Governance
- User Research & Usability Testing
- Prototyping & Rapid Iteration
- Heuristic Analysis & Journey Mapping
- AI Products (LLMs, Generative AI)
- Visual QA, Documentation & Handoff
- Accessibility (WCAG)
- Front-End (HTML, CSS)
- B2B Enterprise & B2C Products

## Skills

**Design & Prototyping**
Figma, FigJam, Framer, Adobe Photoshop, Adobe Illustrator

**AI & Dev Tools**
Claude, Claude Design, Cursor, Google Antigravity, VS Code, Azure DevOps

**Research & Testing**
Maze, Mural, Miro, Flowmapp

**Productivity & Collaboration**
Notion, Milanote, Obsidian, Jira, Agile / Scrum

## Education & Languages

**Postgraduate — UX Design and Beyond (UX/UI)**
*PUC RS* · 2022

**Cambridge Advanced English (C2)**
*Cambridge Certificate Training Center* · 2014

**3D for Interiors & Sets / Digital Graphic Design**
*Universidade Veiga de Almeida* · 2013

**Graphic Design, Illustration & Animation**
*Universidade Veiga de Almeida* · 2012
